Who We Are

Langlands is your neighborhood restaurant & bar serving contemporary Australian cuisine. High quality, thoughtfully sourced food & wine with touches of European flair and Asian-inspired flavours.

We predominantly source from regional Victoria and greater Australia based on the season. The provenance of our ingredients is of paramount importance. The wine list is curated from our backyard and afar, celebrating all that's Australian while paying homage to the old world.

How to Enjoy

Order for the table, not just yourself – our dishes are made for sharing and sparking conversation. Large plates are protein-based and best enjoyed with a selection of sides, while our starters are perfect for passing around.

Thoughtfully Sourced, Carefully Served

We take pride in sourcing the freshest ingredients from local farmers and small producers across Victoria and Australia, ensuring every dish supports the local community and promotes sustainable food production.

Up-Cycled Food Waste

Through our partnership with Bardee, we upcycle food waste into high-value fertiliser and protein products using cutting-edge black soldier fly technology. This initiative diverts waste from landfill, reduces greenhouse gas emissions, and contributes to a circular economy by supporting sustainable agriculture.

Electrolysed Water

As Australia's largest integrated installation of eWater, we reduce our chemical and carbon footprints while ensuring hospital-grade cleaning. eWater's biodegradable disinfectants and sanitisers provide a safer environment for our guests and staff with environmental benefits. It's part of our broader commitment to sustainability.

Supporting Backyard Honey

At Langlands, sustainability is at the heart of everything we do, from farm to fork, and beyond. We've purchased a honeybee colony and hive through Backyard Honey, helping to support local pollination and enjoy the purest raw honey straight from the hive. This partnership is just one of the many ways we work to protect the environment and nurture a healthier ecosystem.
